

Number Bond

1st Grade

John ate 8 orange slices. If he started with 13, how many orange slices does he have left?

3rd Grade

Make number bonds to show the hundreds, tens, and ones in each number.
Then write the number in unit form.

333

5th grade

Use mental math to solve.

$37 + 25$

$$37 + 25$$

A diagram illustrating the decomposition of the numbers 37 and 25. The number 37 is circled, and an arrow points from the 7 to a 3 below it. The number 25 is also circled, and an arrow points from the 5 to a 2 below it. The 3 and 2 are then combined to form a 5 below them. The final sum is 62.

$$40 + 22 = 62$$
